Special Issue on

“Hematologic Oncology: Pathophysiology and Management”

Aims and Scope

[Cancer Science & Research: Open Access](#) (CSROA) is an Open Access Publication that enlightens and empowers the cancer research community by providing an insight on breakthrough discoveries in basic and clinical cancer research. CSROA is an international Peer-Reviewed Journal for original submissions, reviews, surgeon's reports, rapid communications, editorials, case reports and letters encasing the etiology, pathophysiology and treatment of cancer.

Blood Cancer is a common term for cancers affecting blood, bone marrow and lymphatic system. Early Screening and treatment is recommended to reduce the mortality rate. Constant accessing of researchers with improved chemotherapy and radiotherapy techniques added new types of targeted therapies.

The main aim of the Special Issue entitled “**Hematologic Oncology: Pathophysiology and Management**” is to bring worldwide awareness, the early detection and novel therapeutics of blood cancer in an easily accessible way.
